ASIA Map

WORLD HISTORY

Mr. Wirkus

DIRECTIONS:
1. To find the location of each place use an **atlas**, your **textbook** (pp. A18-A21), **my website** wirkus.weebly.com [Homepage>Geography>Asia] as a reference), and or **Google Maps**.
2. Label all of the locations in PENCIL.
   IMPORTANT: Be sure to write the text straight across & capitalize the first letter only.
3. Use a LIGHT blue pencil to underline shade in the bodies of water. Use a *darker* blue pencil to show the path of rivers.
4. Use colored pencils & *contrasting* colors (lighter colors next to darker ones), to **lightly & completely shade** in all the countries listed above.
5. Use a **fine-tip** BLACK ink pen to place a small DOT • in the approximate location of each city.
6. Finally, using a **fine-tip** BLACK ink pen, go over all the text where you previously used pencil.

Locations to Label (Total = 75)
Countries (30):
East Asia: ☐China, ☐Taiwan, ☐Japan, ☐Mongolia, ☐North Korea, ☐South Korea, ☐Russia
